### Tactics / Graphic Designer

February 2022 - Present / Eugene, Oregon + Remote

As the full time graphic designer for over the last year, I have been building the creative visuals for all things Tactics. From 3-7 campaigns a week, sales creative, studio photos, lifestyle photos, art directing event branding, critiquing and workshopping both the senior designer and brand manager's creative projects, to daily design production needs in between. I'm proud to say that my main measurement of success is the genuine stoke from the local skate and snow scene.
